

Versions P036 – 36.25 of VA-ONCE

Installation Dates

5/19/13, 6/2/13, 7/14/13, 7/24/13, & 8/4/13

The following changes have been made to VA-ONCE in versions 36.0 to 36.25. The install date is noted next to each change.

- 1) For chapter 31 certifications, the distance hours field is now being sent to the VR&E Counselor through CWINRS. Previously in residence credit hours and distance credit hours were added together in one field. *(version 36.0 installed 5-19-13)*
- 2) An edit was installed on the Bio page. If chapter 33 or 33Yellow is selected, the file number is 9 digits, and the SSN and file number do not match, a pop-up appears. *(version 36.10 installed 6-2-13)*

The screenshot displays the 'Bio' page in the VA-ONCE system. The user's name is 'MONKEY BUSINESS'. The SSN is '221-45-0675' and the File Number is '254-56-1448'. A red box highlights these two fields. A pop-up message box is overlaid on the form, titled 'Message from webpage'. The message reads: 'THE VA FILE NUMBER AND THE SSN DO NOT MATCH. Please check to ensure you have entered the correct VA File Number. Do NOT use leading zeros. Do NOT use the Transferor's SSN as the VA File Number. In most cases the VA File Number is the same as the SSN. Click 'OK' to continue with the unmatched File Number. Click 'Cancel' to change the File Number.' The pop-up has 'OK' and 'Cancel' buttons.

The pop-up contains information on common mistakes that are made when entering the VA File number.

3) Changes to the Social Security Number will now be recorded on the History page. *(version 36.10 installed 6-2-13)*

4) The students at 4 separate facility codes in Florida were merged into another facility code. *(version 36.15 installed 7-14-13)*

Hillsborough Community College went from 5 separate facility codes to one main facility code. The students at the 4 branches were moved to the main facility code so that the SCO did not have to add students individually.

5) The text on the VA-ONCE home page was changed to more accurately state the browser and versions that are supported by VA. *(installed 7-24-13)*

"What is needed to run VA-ONCE? To use VA-ONCE, you must be using Microsoft Internet Explorer (IE 6.0, 7.0, 8.0, 9.0) browser. Although all browsers are allowed to access VA-ONCE, other browsers and the most recent versions of IE have not been fully tested to certify compatibility."

6) Guest students attending FL and SC schools were incorrectly being routed to Atlanta. This was corrected. (installed 7-24-13)

7) An "Other" option has been added to the State drop down list on the School Select page. This will allow the user to search for schools with Foreign and Military Overseas addresses. (version 36.25 installed 8-4-13)

After P036.25

8) The wording of the Reason for Adjustment “Preregistered but never attended”, has been changed to “Preregistered but reduced prior to first day of term”. *(version 36.25 installed 8-4-13)*

The wording of the termination reason remains the same. This is being done to prevent human errors. In some instances the students were being terminated instead of reduced.

9) The remark that is automatically inserted for guest students has been changed from “Courses confirmed to be applied to a degree program at *name of school inserted here*”, to “Courses confirmed to be applied to a degree **or certificate** program at *name of school inserted here*”. *(version 36.25 installed 8-4-13)*

This is being done to accommodate guest students earning certificates instead of degrees.
